Dear Tim Collins, Gabriel Sukman and Michael Carone,

Here is the patent application which Gabriel Sukman originally requested be made to conform with code, and which many remarks were thereafter made, but not here included. However, this copy only complies with code and does not make any additional remarks and include any new matter. 1 page of brief remarks added at the end outlining issues which involved conforming patent application to code. Thank you for your diligent examination.

If you have any further questions please feel free to call me at (415) 756-7331.

Thank you,

Michael L. Beauchamp
